

### Project Highlights

- V-ROD® GFRP rebar cast in pre-cast pre-stressed Ductal girder approximately 34m in length x 3.6m wide
- Pre-cast girders used #4(13m) GFRP straight bar along with various bends and stirrups
- V-ROD® non-corrosive, lightweight, and durable properties in precast provide greater quality control, simpler and quicker installation on site for contractors

### Sanderling Pedestrian Overpass, fall 2008

- V-ROD Canada supplied V-ROD® GFRP reinforcement on pre-cast Lafarge Ductal girder overpass in Calgary, AB
- Owner: City of Calgary
- Contractor: Graham Construction & Engineering with pre-cast subcontracted to Lafarge (Cgy) Precast
- Engineer: Cohos Evamy Integrate design
