

### Project Highlights

### Wayne Gretzky Pkwy, ON Aug 2007

- V-ROD® GFRP rebar installed in pedestrian foot bridge deck and parapet walls
- Overall deck dimensions were 80.0m x 4.10m, using #5 (16m) and #7 (22m) bar.
- V-ROD® GFRP reinforcement selected due to non-corrosive properties, lightweight compared to steel and excellent durability characteristics

- V-ROD Canada supplied V-ROD® GFRP reinforcement for the Wayne Gretzky Pkwy footbridge in Brantford, ON
- Owner: City of Brantford, ON
- Contractor: McLean Taylor Construction
- Engineer: Philips Engineering
